CITY ITEMS.

THREE QUARTERS OF A MILLION.—The population of this City on the 1st of June last was about five hundred and twenty thousand; as appears from the returns of the Marshals. About half the Wards are returned; the others are partially returned and partially estimated: ACTUAL RETURNS.

Population of the City proper 522,766 Add to this, Brooklyn and the circumjacent places which are as much a part of New York as Manhattanville is, and we have a Metropolitan Population of nearly 750,000, or THREE QUAR-

TERS OF A MILLION!

Note.—The above estimates are from an authoritative source, but it strikes us that the estimator has based his figures for the Sixteenth Ward upon the return of 1245, for-getting that the Ward ims been divided since that date, the whole of the Eightsenth Ward being then a fraction of the Sixteenth. If so, the Sixteenth must come down to about 10,000; but we may be wrong. At any rate, the difference o not material to the aggregate.

NAVAL .- The U. S. revenue cutter Morris, Lieut. Martin, Commanding, has been taken into the Balance Dry Dock for inspection. It is expected that she will be immediately ordered into active service on this station.

In the evening the McNulty Guards Capt. Jackson, passed our office. Both companies had been on target excursions, and the McNul tys had another company with them, the name of

NEW LINE OF STACES .- We are glad to observe that our idea of a line of stages across the City from the Hudson River Railroad depôt to the East side is to be carried out. Mayor Woodhull says that permission has been given to John H. Ryerson to run fifteen stages from the Hadson River Railroad dépôt, at Thirty-first-st. through Tenth-av. Fourteenth-st. Ninth av. Greenwich-st. Spring st. Broadway and Grand st. to the Williamsburgh Ferry; and twenty-seven stages from the same point through Thirty first st. Ninth av. Fourteenth st. and Broadway, to South st. The Hudson River Railroad dépôt and Williamsburgh Ferry are distant points, between which there is much travel, and on which no route has heretofore been established. A convenient communi. cation between these points seems to be greatly demanded, to accommodate persons residing in the eastern part of the City and Williamsburgh, who may have occasion to travel on the Rudson River Railroad.

A partially new line is to be started by the wners of the "Knickerbocker." Permission has been given to the Knickerbocker line, now running from Twenty-eighth-st, through Eighth-av. Bleecker-st. and Broadway, to South Ferry, to run a part of their stages through Fourth, Carmine and Houston sts. [we don't exactly understand this route] Broadway and Maiden-lane to South-st. ten new licenses having been given and five transfers for the purpose. While this change will diminish the number of stages in Broadway between Maiden lane, it will also enable persons doing business in the latter street and its vicinity doing business in the inter street and its vicinity to have a more convenient and direct access to the upper part of the City, and to furnish them with additional inducements and facilities to re-side there, instead of seeking a residence, by means of the ferries, out of the City.

SPECIAL EPISCOPAL CONVENTION .- A special Convention of the Protestant Episcopal Diocese of New York is called to meet in this city on Wednesday, 27th inst., for the purpose of taking into consideration the canon passed at the late General Convention at Cincinnati, entitled, " Of the Election of a Provisional Bishop in the case of a Diocese whose Bishop is suspended without a precise limitation of time." The Convention will proceed to the election of a Provisional Bishop for this Diocese, in accordance with the provisions of the canon, should said canon be accepted.

Also, for the collection and pay ment of notes, drafts, bills, &c. &c. Offices 3 Nassau-st New-York; 7 Exchange-st. Providence.

FINE ARTS .- We call the attention of the artoving public to the new Talbotype Portraits of the estab shment of Mr. A. Q. Brauns, tlate Langenheim & Co. 247 Broadway, which seems to combine the exact likeness of the photograph with all the expressive effect of the oil or miniature painting. The process by which the Taibo types (as these pictures are named, after their inventor, are taken secures accuracy of outline, proper gradation of light and shadow, with a graceful and easy position; while the talented workmanship of eminent artists gives to these sictures the characteristic expression so much admired in the productions of the best masters in portraiture. small advantage is, that this process obviates the necessity of those tedious sittings required by artists that draw be the eye; one or two sittings, of a few minutes' duratio each, being all that is required. We would advise the pub, lic to examine the fine collection of specimens that Mr. Brauns has at his rooms, which will repay the trouble of visiting them. We also call attention to the advertisement in another column of our paper.

The large sale of lots at Dunkirk, the terminus of the Eric Railroad on Lake Eric, will be con-tinued this day, Tuesday, Nov. 19, at 12 o'clock, at the Merchauts Exchange, by COLE & CHILTON, Auctioneers. The balance of the lots remaining unsold comprises a large portion of the most valuable part of the property. The sale is peremptory, by order of the New-York Dry Dock Company. Maps can be had of the Auctioneers, 9 Wall-st.

Mr. WARNER's Music Class, which promies to be of unusual interest, will be opened with a Free Lecture, at 415 Broadway, on Monday evening next. The delay is occasioned by the unexpected amount of time necessary for making the due arrangements.
